

TOPIC:

WHAT POSITIVE CHANGES  
WE CAN EXPECT IF WE  
WILL FIND THE SOLUTION?

- Less energy used
- Raise of awareness about the topic
- Improving holiday experience -  
trying something new

DESCRIPTION OF THE TOPIC

WHY IT IS IMPORTANT  
FOR YOU TO WORK  
ON THIS ISSUE?

My family has a summer house  
and I would like to encourage them  
to make it more environmental friendly.

## Pippi

Pippi is red-haired, freckled, unconventional and super-humanly strong – able to lift her horse one-handed. She is playful and unpredictable. She often makes fun of unreasonable adults, especially if they are pompous and condescending. Her anger comes out in extreme cases, such as when a man ill-treats his horse. Pippi, like Peter Pan, does not want to grow up. She is the daughter of a buccaneer captain and has adventure stories to tell about that, too. Her four best friends are her horse and monkey, and the neighbours' children, Tommy and Annika.

## Philippe Starck

Philippe Starck (born January 18, 1949) is a French designer known since the start of his career in the 1980s for his interior, product, industrial and architectural design including furniture. According to this design principle, the less material used, the more efficient the product – or even, in Starck's opinion, the more "human" the product becomes. To achieve this aim, the brand looks to the natural world for inspiration, studying the ways in which humans and technology interact.

## Neil Armstrong

In July 1969, Armstrong and Apollo 11 Lunar Module pilot Buzz Aldrin became the first people to land on the Moon, and spent two and a half hours outside the spacecraft while Michael Collins remained in lunar orbit in the command and service module. When Armstrong stepped onto the lunar surface, he famously said: "That's one small step for [a] man, one giant leap for mankind."
