SB BRIDGE - BUILDING BRIDGES FOR GREEN TECH FUTURE

Main objective - to increase the capacity of youth as skilled potential labor force working in green and blue economy sectors of the South Baltic area through joint cross-border initiatives.

Main result - skilled and motivated students and scholars for potential workplaces in green and blue economy SMEs in these South Baltic countries: Lithuania, Germany, Poland, Sweden and Denmark.

Main outputs:

- More than 300 students participants in joint training and joint employment initiatives: green camps, green techolympics, study visits, knowledge e-platform.
- More than 25 SMEs involved in the implementation of cross-border joint training and employment.
- More than 20 institutions, involved into the implementation of joint training and joint employment services.
- Delivered 1 cross-border employment scheme in the green and blue economy of the South Baltic area.
